Liste des communications orales

  Computational aspects of building blocks nucleation and synthesis of porous materials
  «Workshop CECAM Simulation, design and crystal engineering of metal-organic frameworks», 
  Lyon (France), 16-18 juillet 2007,

  Adsorption of CO2 in MOF materials : Explanation of the breathing effect by computations and experiments
  «Advances in the Chemistry and Physics of Complex Materials», Londres (Grande Bretagne), 25-27 juin 2007,

  CO2 adsorption in MIL-53(Al) : A computational study compared to experiments
  «Workshop CECAM Computational aspects of building blocks, nucleation and synthesis of porous materials», Lyon (France), 29-31 septembre 2006,
