Liste des chapitres d'ouvrage

2017

- Sylvain Caillol, Bernard Boutevin and Jean-Pierre Pascault
  Biosourced Epoxy Resins,

2013

- Bernard Boutevin, Rémi Auvergne and Ghislain David
  Thiol-ene radical coupling, a powerful technique for the synthesis of polymer precursors, block copolymers and graft copolymers, 217-235

2008

- François Ganachaud, Emmanuel Pouget and Bernard Boutevin
  Thermoreversible Crosslinking of Silicones Using Acceptor-Donor Interactions, 85-98
  *Silicon Based Polymers*, , 2008.

2007

- Ghislain David, B. Boutevin, Cyrille Boyer and Pierre Lutz
  Synthesis of Macromonomers and Telechelic Oligomers by Living Polymerizations, 775

2006

- Jeff Tonnar, Patrick Lacroix-Desmazes and Bernard Boutevin
  Living Radical Ab Initio Emulsion Polymerization of n-Butyl Acrylate by Reverse Iodine Transfer Polymerization, Volume 944-619
  *Controlled/Living Radical Polymerization*, Éditions Krzysztof Matyjaszewski, , 2006.
